Jackery HomePower 2000 Ultra

BRING GREEN  
ENERGY TO ALL

## About Jackery

Founded in 2012 in California, USA, Jackery was born with a vision to bring green energy to all. In 2016, Jackery launched the world's first outdoor portable power stations and, two years later, developed the world's first portable solar panels. Having introduced solar generators to the great outdoors, Jackery fulfills the power needs of every nature-lover, inspiring them to explore further and seek more extraordinary experiences than before. We encourage our global adventurers to enjoy the outdoors sustainably, working together to protect our planet.

# Milestones

## 2012

- Founded in Silicon Valley, California

## 2016

- Jackery Launched its First Lithium Portable Power Station - the Explorer Series
- Won the German Red Dot Design Award
- Recipient of the iF Design Award

## 2018

- Jackery Launched its First Portable Solar Panel - the SolarSaga Series
- Won the German Red Dot Design Award
- Recipient of the CES Innovation Award

## 2022

- Launched flagship Solar Generator 1000 Pro and 2000 Pro
- Introduced the SolarSaga 80W—the world's first photovoltaic product to receive TÜV SÜD's prestigious certifica
- Winner of the Red Dot: Best of the Best award
- Named "Best of IFA 2022" by TechRadar

## 2020

- Recognized as the top-selling outdoor brand in the U.S. and Japan
- Recipient of the CES Innovation Award

## 2024

- Global sales reached 5 million units
- Winner of the SEAL Sustainable Product Award
- Recipient of the iF Design Award
- Launched the Jackery 5000 Plus, Smart Transfer Switch, and 500 X Solar Panel for whole-home backup

## 2025

- Debuted the Jackery Solar Roof, the first curved solar tile in the United States
- Announced the upcoming launch of the Jackery 3000v2, providing essential home backup solutions
- Introduced the first Jackery Solar Generator RV Kit
- Debuted the HomePower Energy System, delivering complete home power solutions

# Balcony Solar Power Storage System

Jackery HomePower 2000 Ultra

**Jackery**  
Solar Generator

On-Grid & Off-Grid  
Up to 1500W AC Output

AC/DC Hybrid Charge  
Up to 2000W

2800W Solar Input  
2000W(MPPT)+800W(Microinverter)

Expandable to 8kWh  
2 kWh for One Unit

One Device Fits All  
Balcony, Home, Outdoors

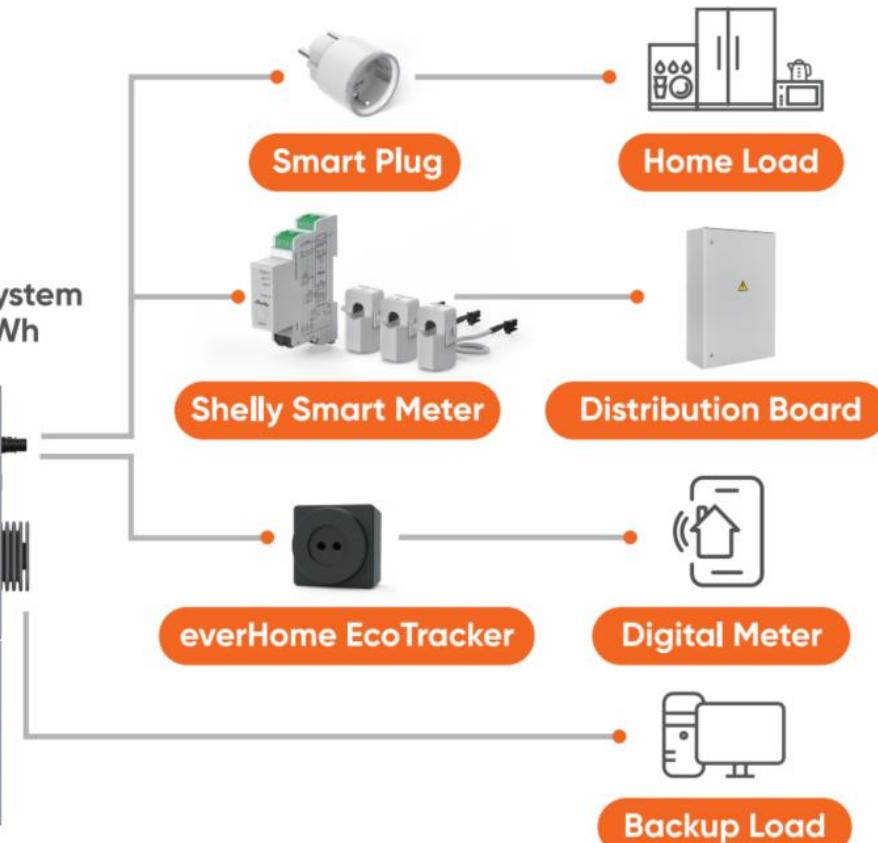

Jackery Home App

2000W Solar Input with Dual MPPT

Balcony Solar Power Storage System  
Expandable Capacity: 2-8kWh

# Key Selling Points

## Saving

- 2800W Solar Input
- Dynamic Electricity Tariffs: Charge at the Lowest Price
- 0 Waste: Every Watt Serves Your Home Ecosystem

## Powerful

- 2-8 kWh Flexible Capacity
- 1500W AC Output
- Emergency Power Supply < 20 ms

## Secure

- Intelligent Fire-Fighting System with three-tier Protection
- -20 to 55°C, Proven Reliability in Extreme Environments
- IP65 Waterproof and Dust Resistant for Outdoors
- 10-Year Warranty & 15-Year Lifespan

## Smart

- Maximize Savings with Shelly Smart Accessories
- Intelligent Schedules Charging/Discharging

## Simple

- 0 Drills · 3 Cables · 5 Minutes
- 200W Ultra-Lightweight Flexible Solar Panels
- Plug and Play, Easy to Use

## Reliable

- 100+Protections
- 1000+Tests
- Long-lasting LFP Batteries

**2 Years Payback: Save Up to €1304 per year on Energy Bills.**

**2-8kWh, 1500W EPS < 20 ms:  
Energy Independence Starts from Your Balcony.**

**Intelligent Fire-Fighting System, Extreme Weather Alerts, -20 to 55°C, IP65 and 10-Year Warranty for Total Peace of Mind.**

**Intelligent Control from a Single Device to the Whole Home:  
Your Energy-Saving Smart Assistant.**

**Solar in a Snap: Easy, Simple, Friendly.**

**Proven Reliability, Built to Last.**

# From Saving Money to Energy Independence

---

## Independent Energy — Just Like an RESS!

Safety certification for **Residential Energy storage system** (RESS)  
Up to **2kW PV and 8kWh** battery systems

## Maximize Every PV Watt in Your Home

Patented power consumption management technology,  
supporting 0 solar energy waste by **Smart Meter!**

## Provide Your Home with the Most Free Solar Energy Possible

2000W (MPPT) + 800W (Microinverter)  
Save Up to €1304 per year on Energy Bills.

## Dynamic Electricity Tariffs: Charge at the Lowest Price

Charge your system at the lowest price possible and  
discharge at peak prices automatically.

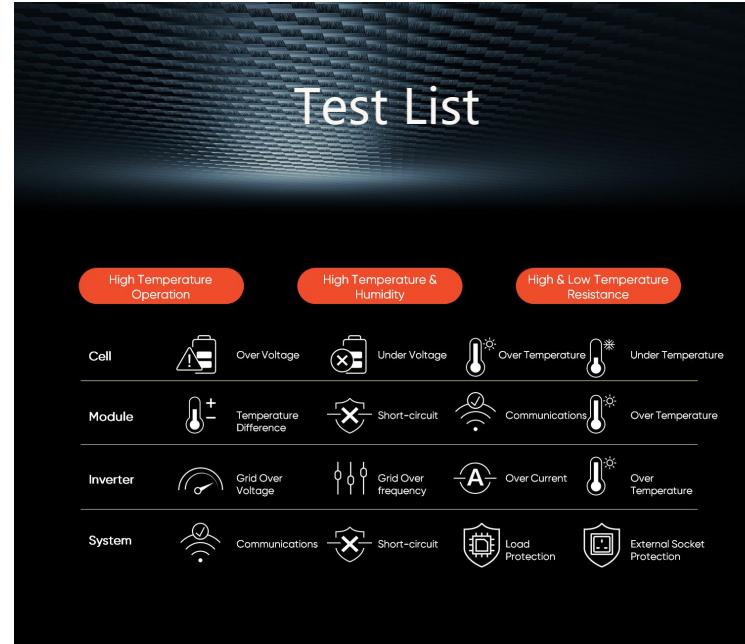

# Safe and Reliable

---

Fire-Fighting

Test List

Intelligent Fire-Fighting System  
Three-tier Protection  
Detecting Temperature, Alarms, Aerosol fights fires

100+ Safety Protections  
4-Level System Guard  
1000+ Verification Tests  
3 Long-Term Reliability Tests

-20 to 55°C

IP65

Operation in all climates  
No derating at high temperature  
Ultimate safe charging strategy at low temperature

# Simple-Easy to Use

---

Easily Keep Critical Loads (95% of household appliances) Powered With 1500W off-grid power

Plug-and-play, easily upgrade your existing balcony solar equipment, a maximum 800W microinverter

World-Leading All-In-One Design  
Prestigious Winners of Muse Design & Green Good Design

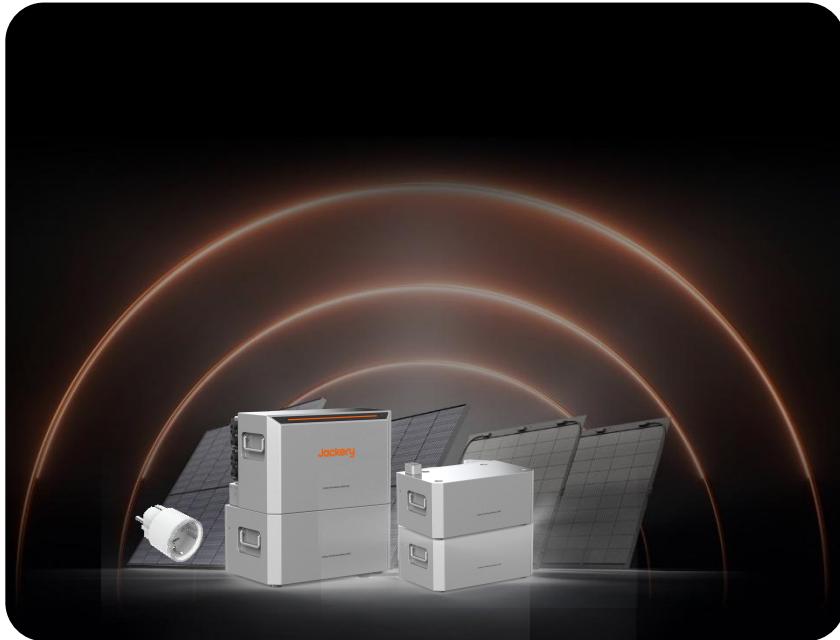

Simple and Quick Installation  
No Drilling and Only 3 Cables Required  
Easy Self-Installation in 5 Minutes\*

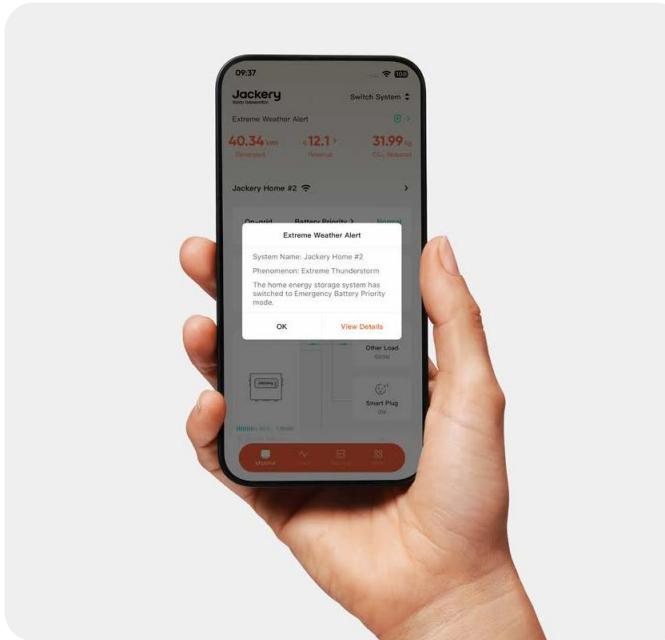

Note: \*It takes just 5 mins to complete the installation without professionals for HomePower 2000 Ultra + 1\*200W Flexible Solar Panel, and 20 mins for HomePower 2000 Ultra + 800W Solar Panel (Rigid) .

# Smart and Efficient

---

Intelligent Whole-Home Energy Management  
Smart Meter + Plugs for Precise Control of  
All Loads and Individual Devices

Extreme Weather Alerts  
One-Click Time of Use  
Dynamic Electricity Tariffs

Grid + Solar Hybrid Charging  
80% Charged in 52 minutes  
Emergency Power Supply with 20ms Automatic

$V_{oc}$ Temperature Coefficient (%/°C)	-0.26	
$I_{sc}$ Temperature Coefficient (%/°C)	0.033	
Operating Temperature (°C)	-40 to +85	
Nominal Module Operating Temperature (NMOT) (°C)	41±2	

## JACKERY DIY SOLAR GENERATOR FOR HOME Smart Plug

The smart plug monitors and controls lighting, heating, or any other connected electrical appliance at home. When Jackery HP 2000 Ultra is paired with the Smart Plug Pro, you gain precise monitoring of your home's energy consumption.

- Manage power supplies up to 12A
- LED indications to keep you aware of power consumption and state
- Local Wi-Fi connection with HomePower 2000 Ultra
- Precise power control and home load monitor

Mechanical	
Size (HxWxD)(mm)	44x44x70 ±0.5
Weight (g)	60 ±1
Compatible Sockets	CEE 7/1, CEE 7/3 (Type F / Schuko) or CEE 7/5 (Type E)
Compatible Plugs	CEE 7/2, CEE 7/4 (Type F / Schuko), CEE 7/7, CEE 7/16 (Type C) or CEE 7/17
Shell Material	Plastic
Environmental	
Ambient Temperature (°C)	-20 to 40
Humidity	30 % to 70 % RH
Max. Altitude (m)	2000
Electrical	
Power Supply Voltage (VAC)	230±10 %, 50/60 Hz
Power Consumption (W)	< 1
Output Circuit Ratings	
Max switching voltage AC (V)	260
Max switching current AC (A)	12
Sensors, Meters	
Temperature Sensor	Yes
Voltmeter	Yes
Ammeter	Yes
Power and Energy Meters	Yes
Radio	
RF Band (MHz)	2400 - 2495 MHz
Max. RF Power (dBm)	<20 dBm
Wi-Fi Protocol	802.11 b/g/n
Wi-Fi Range (m)	≤30/100 (indoors); ≤50/160 (outdoors) depending on onsite conditions
Bluetooth Protocol	4.2
Bluetooth Range (m)	≤10/33 (indoors); ≤30/100 (outdoors) depending on onsite conditions

## JACKERY DIY SOLAR GENERATOR FOR HOME Smart Meter -WIFI/Bluetooth

This device is a two-channel, single-phase energy meter. Enhanced with all the HP2000 Ultra Series firmware flexibility and LAN connectivity, it provides additional options for end-customer solutions. This meter reports accumulated energy as well as instantaneous voltage, current, active, and apparent power per phase in real time.

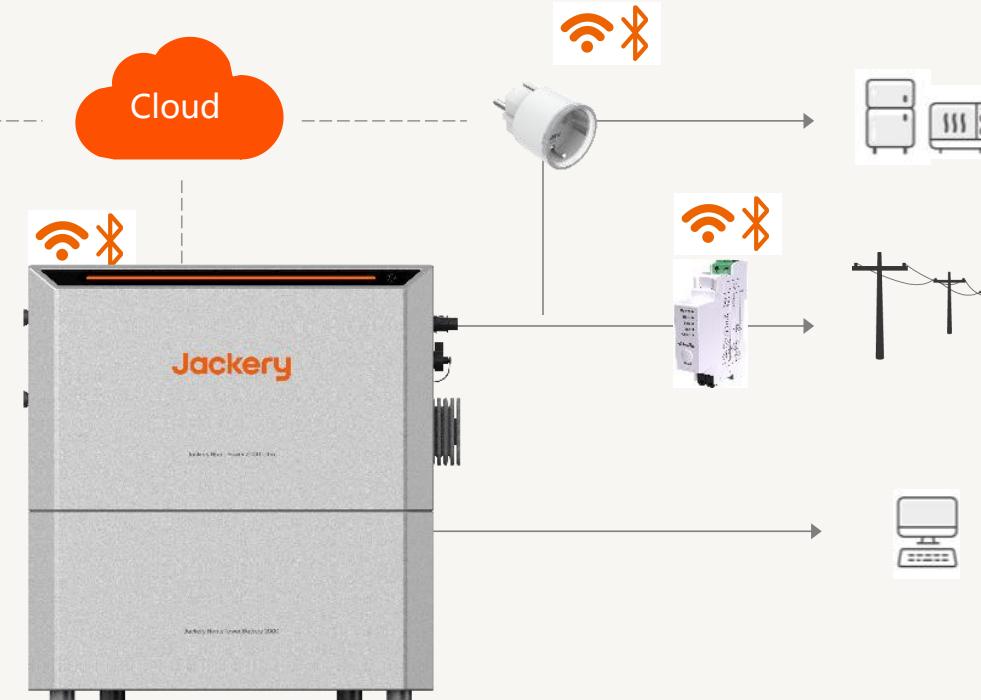

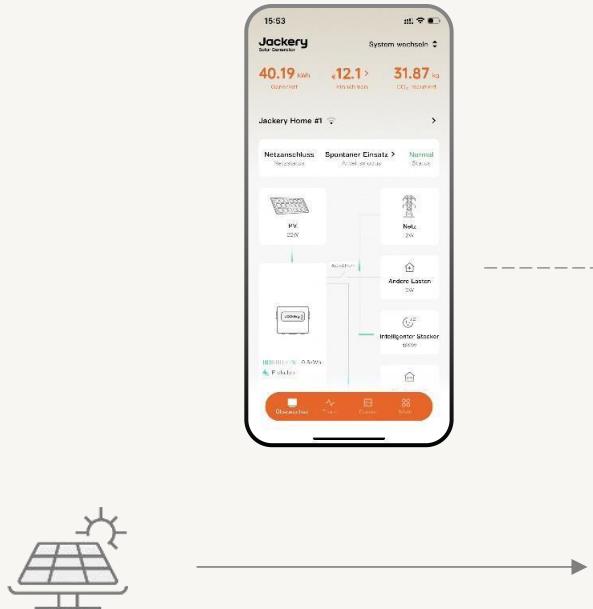

- 4 Quadrant measurement
- DIN rail mounting
- Current transformer connection
- Accuracy Class B (IEC 62053-21)

Mechanical	
Size (HxWxD)(mm)	94x19x69 ±0.5
Weight (g)	63 ±1
Mounting	DIN rail
Environmental	
Ambient Temperature (°C)	-20 to 40
Humidity	30 % to 70 % RH
Max. Altitude (m)	2000
Electrical	
Power Supply Voltage (VAC)	100 - 260, 50/60 Hz
Power Consumption (W)	< 3
Output Circuit Ratings	
Max switching voltage AC (V)	240
Max switching current AC (A)	2
Sensors, Meters	
Temperature Sensor	Yes
Voltmeter	100 - 260 V, ±1 %
Ammeter	5 - 50 A, ±1 % (5 - 50 A), ±2 % (0 - 5 A)
Power and Energy Meters	Yes
Radio	
RF Band (MHz)	2400 - 2495
Max. RF Power (dBm)	<20
Wi-Fi Protocol	802.11 b/g/n
Wi-Fi Range (m)	≤30 (indoors); ≤50 (outdoors) depending on onsite conditions
Bluetooth Protocol	4.2
Bluetooth Range (m)	≤10 (indoors); ≤30 (outdoors) depending on onsite conditions

# JACKERY DIY SOLAR GENERATOR FOR HOME

## Jackery Home App

With a Wi-Fi or 4G connection, the Jackery Home App monitors your energy storage system's operational data in real time. In the user app interfaces, you can view your system's real-time power output, usage, and savings data. Just one click helps you control your energy-saving preferences and evaluate historical trends.

The Jackery Home App is easy and convenient to operate and supports intelligent optimization.

- User-friendly App interfaces
- Local and cloud commissioning
- Local/remote view of power generation and consumption data
- Optimizing power usage habits based on usage data
- Weather-sensing for early warning and power preparation
